AUTUMN WALK

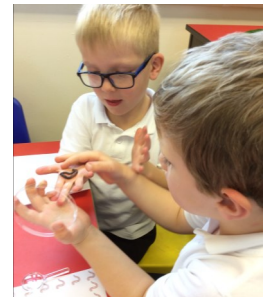

On Monday afternoon we really enjoyed our walk around Masham in the glorious sunshine. The children collected lots of signs of Autumn, which we brought back to the classroom and used to make some fabulous transient art. Recognising and describing seasonal changes is a key part of their Understanding of the World learning.

WIGGLY WORMS

Mrs Clarkson loves worms! She loves them so much that she brought in some of her garden friends to meet everyone. A few children weren't so keen at first but after a while everyone was brave enough to hold one and made lots of great observations about how

they looked, moved and felt. We made a wormery for them to live in and also got the clay out and had fun in the sun making clay worm families. The concentration and focus the children showed was very impressive, as was their use of tools to make patterns on the clay and to alter its texture.

MARVELLOUS MEASURING

With the help of some plastic worm buddies we have been doing lots of comparisons and ordering of length and using maths vocabulary, such as longer/est, shorter/est.

Hope you have a good weekend! The Early Years Team

Don't forget!

Phonics meeting
