

Home Learning Activities

Year Group: **Year 1** Week beginning: **29.06.20**

English

Complete the English daily sessions for Year 1 on The Oak National Academy (see link below).

Phonics and Reading

Continue reading every day, if possible, remembering to read/look at the same book 3 times. <https://home.oxfordowl.co.uk/books/free-ebooks/>

1st read = using phonics skills to decode the words (sounding out and blending the sounds to read the words).

2nd read = increasing confidence and fluency, maybe beginning to add some expression / character voices with adult modelling.

3rd read = developing understanding of the text by asking your child simple questions.

Use this link to play lots of fun online games to practise phonics, focusing on the sounds that your child isn't confident with.

<https://www.phonicsplay.co.uk/resources/phase/5>

Red Hot Challenge!

Watch this beautiful short animation called [Bubbles](#). Using the template provided (see resources) complete a story map and then use it to write the story. You may want to do this over a few days.

Mathematics

Complete the Maths daily sessions for Year 1 on The Oak National Academy (see link below).

Red Hot Challenge! This is a combined maths and science challenge. Explore the shape and size of bubbles by making your own bubble blowing wands or using objects from around the house to blow bubbles (think cookie cutters, potato masher, colander - anything with holes). Can you blow a bubble that isn't round? Who can blow the biggest bubble?

These links may help you. <https://www.science-sparks.com/bubble-fun-1/>
<https://www.bbcgoodfood.com/howto/guide/how-make-bubble-mixture>

Key maths vocabulary to use: size, compare, big/biggest, small/smallest, round, circle, sphere, square, rectangle, triangle.

Foundation Subjects

Complete the Foundation daily sessions for Year 1 on The Oak National Academy (see link below).

<https://www.thenational.academy/online-classroom/schedule/#schedule>

Complete the Week 9 sessions (22nd June)

Home Learning Activities

Year Group: **Year 1**

Week beginning: **29.06.20**

RE Bubble prayers

The Bible says that we can throw (or blow!) all our worries to God, because God cares for us.

Have a talk about anything you might be worried about. When you're ready, blow the bubbles. Imagine that you are blowing the bubbles and your worries to God.

Remember God cares about you.

Project Learning – Space

The project this week aims to provide opportunities for your child to learn more about space. Learning may focus on our Solar System, the Sun and the Moon. It could look at life in outer space from the view of an astronaut and travelling through space. Here are a few ideas...

- **Our Solar System** - Encourage your child to think about what they already know about space and create a mind map. Can they name the planets in our Solar System? Use the [Solar System Song](#) to create a diagram showing the order of the planets. Or make real ones using balloons and paper mache.
- **Astronaut Aerobics** - Astronauts have to be fit and agile for their missions into space. Ask your child to design a home workout and put your agility to the test! Then, your child can plan a day of healthy eating for the aspiring astronauts thinking carefully about each food group.
- **Rocket Creation** – Design and make rocket using objects they can find in the home such as cardboard boxes, newspapers and tin foil.
- **Space science** – Have a go at some of the space experiments on the Science Sparks [website](#).
