

Our week in Swinney:

18th - 22nd March

We have been...

- Checking our phonics learning from this half term
- Exploring measuring capacity - by comparing containers (Reception) and using a smaller container to find the capacity of larger ones (Y1)
- Planning and writing our own 'Detective Animal' stories based on our class book, 'Hermelin'
- Talking about the changing weather as Spring develops

You can help at home by...

- Practising recognising the letters and their sounds we have learnt this year (all of the ones on Grow the Code) and playing games like 'I spy'
- Reading 3 times a week and sharing other books for pleasure (please use black pen in diaries)
- Compare the capacity of different containers - enjoy water play to do this (or sand/rice/oats etc)
- Keep your eyes out for the signs of the changing season - our new theme after Easter is about growing, so maybe find some seed to plant and try to grow something at home
